

GUARANTEED ANALYSIS:

Total Nitrogen	26%
Ammoniacal Nitrogen26%	
Available Phosphate (P ₂ O ₅)	0%
Soluble Potash (K ₂ 0)	3%
Sulfur (S)	5%
Zinc (Zn)	0.3%

Derived from: Potassium Chloride, Ammonium Thiosulfate, Zinc Sulfate

Physical Properties

Weight Per Gallon 11.16 lbs

MANUFACTURED BY KUGLER COMPANY • 209 West 3rd; PO Box 1748 McCook, NE 69001 308 -345 -2280 www.kuglercompany.com

CAUTION: FIRST AID: Eyes: May cause severe irritation or corneal damage. Immediately flush eyes with large quantity of water for 15-30 minutes. Get medical attention immediately. Skin: may cause moderate skin irritation, redness or burning sensation. May aggravate pre-existing skin conditions. Wash skin with soap and water for 15-30 minutes. Get medical attention if symptoms persist. Wash contaminated clothing before reuse. Inhalation: Vapor or mist inhalation may cause temporary bronchitis, pharyngitis, or edema. Move person to fresh air and get medical attention if breathing is difficult. Pre-existing respiratory disorders may be aggravated. Ingestion: May cause corrosion to the esophagus and stomach. Have fluids ready and call poison control or get immediate medical attention. Do not induce vomiting! Emergency Phone: Chemtrec 1-800-424-9300 (24 hours a day)

TANK MIXING:

Add ½ total water to tank
Turn on recirculation line.
Add prescribed amount of KQ 353
Add liquid flow able materials
Add any soluble powders.
Bring water to volume and recirculate before spraying

PRODUCT INFORMATION:

KQ 353 is a high nitrogen solution with the added benefits of potassium, sulfur and zinc. Early in the growing season, cool soil temperatures often limit the ability of corn roots to absorb sufficient nutrients and water. An application of KQ 353 at side dress time or through pivot application leads to better plant growth and higher grain yields at the end of the season. It is well established that the use of N,P,K and Zn fertilizer together is a beneficial and economic practice especially in the Midwest corn producing areas. Overall the use of KQ 353 increases fertilizer efficiency and thus reduces fertilizer costs.

APPLICATION: Apply as a side dress application, or through a center pivot irrigation system. May also be applied as a strip till application.

ATTENTION: Always check compatibility with other products prior to use. Since weather, crops, soil and other conditions may vary, Kugler Company and/or the Seller make no warranty of any kind, expressed or implied concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.

CAUTION: **KEEP OUT OF REACH OF CHILDREN**. Do not get in eyes, on skin or on clothing. Wear goggles, face shield, or safety glasses and rubber gloves when handling. If eye exposure occurs get medical attention immediately. Harmful if swallowed. Avoid breathing vapor. Protect from freezing. Read entire label before using. Wash contaminated clothing before reuse.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose on this label when used in accordance with directions under normal conditions of use; but neither this warranty or any other warranty of merchantability of fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
