Maximize Crop Quality with Boron DDP®

- Scientifically designed for better plant availability and earlier uptake
- Guaranteed analysis of 18.5% boron
- Formulated to safely deliver boron to crops throughout the growing season
- [Learn more](#) about the benefits of Boron DDP®

Better Distribution of Nutrient

With patented EvenCoat™ Technology, Wolf Trax Boron DDP is coated onto every granule of a fertilizer blend. This results in even, blanket-like distribution of boron across a field, delivering a safe dose of boron and placing the nutrient closer to plant roots for earlier plant uptake.

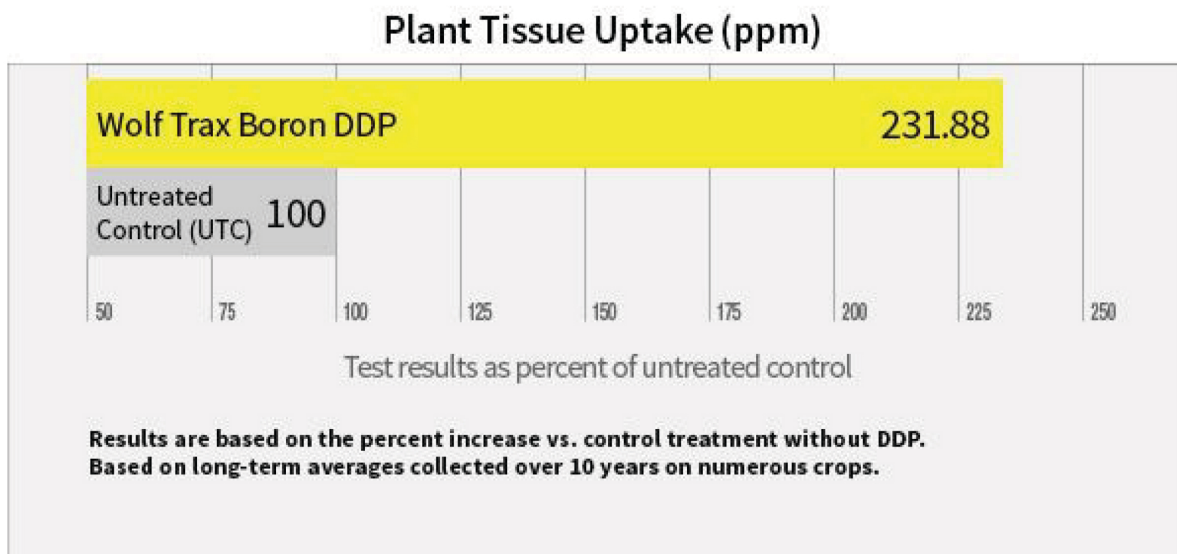

[EvenCoat™ Technology >](#)

Earlier Uptake

Featuring the *PlantActiv*[™] Formulation, Wolf Trax Boron DDP is chemically and physically designed for earlier uptake. The particle size is ideal for plant uptake and the nutrients are formulated to resist soil tie-up and remain plant-available.

Long-Lasting Nutrition

Wolf Trax Boron DDP features DUAL ACTION[™] Availability, which provides plants the nutrition they need throughout the growing season. One source of boron is quickly available for plant uptake, while the other source

releases more slowly. With this DUAL ACTION Availability, plants benefit from early and prolonged feeding of boron.

[DUAL ACTION™ Availability >](#)

The Role of Boron in Crop Production

- Boron maintains a balance between sugar and starch
- Boron is essential for proper cell wall formation
- Boron is important in pollination and seed reproduction

Reasons for Boron Deficiency	Common Crops Affected	Visual Deficiency Symptoms
<ul style="list-style-type: none"> • High soil PH • Leaching in coarse soils • Low soil organic matter • Low soil moisture • High calcium level 	<ul style="list-style-type: none"> • Alfalfa • Canola • Cotton • Fruit trees • Vegetables 	<ul style="list-style-type: none"> • Yellowing between veins on young leaves • Cotton: Limited vertical growth making plant appear bushy • Corn: Missing kernels • Stunted new growth or dieback of shoot tips

Growing Forward™ Guarantee

Wolf Trax DDP Nutrients are guaranteed to correct a nutrient deficiency when applied at the recommended rates, or product will be provided at no cost to you.
